

## VoiceCon Survey results

### Executive Summary:

- Majority of companies already have an active mobile workforce, with 45% saying that more than half of their workforce is mobile
- 88% of respondents have 3 or more phone numbers

- 43% waste 1-3 hours or more per week playing phone tag and checking voicemail.

- 46% of respondents are Blackberry users
- 83% of the respondents are actively looking for, or are considering looking for a Voice Mobility Solution
- Cellular carriers vary at each organization, with the largest percentage (21%) going to Verizon

In conclusion, Ascendent Systems found that the time employees spend playing catch-up is often resulting in loss of productivity.
