

A sleek, slim wireless handset providing the best combined phone, email and application experience for enterprise users who prefer small, phone-style designs.

BlackBerry 7105t for the Enterprise

For GSM/GPRS Networks

Phone, Email and Data – All-in-One

The BlackBerry® 7105t is a small, lightweight handset that provides mobile professionals with the best combined phone, email and application experience so they can stay connected to important communications and information while on the go.

The BlackBerry 7105t™ puts top-of-the-line features such as a large, bright, high resolution color LCD screen, Bluetooth® technology and speakerphone in a sleek and stylish handset that supports international roaming. The BlackBerry 7105t offers complete BlackBerry functionality including phone, email, Internet, intranet access, instant messaging, MMS, SMS and organizer applications.*

Enterprise Friendly

The BlackBerry 7105t works with the BlackBerry Enterprise Solution™ to provide users and IT managers with advanced security features and enterprise-grade functionality such as single mailbox integration, access to enterprise applications, remote address book look-up and more. Unlike traditional mobile phones, the BlackBerry 7105t can also be centrally managed and supported by IT departments.

Easy to Use

The BlackBerry 7105t features BlackBerry push technology that enables email and information to be delivered automatically and effortlessly. Messages can be quickly composed on the BlackBerry 7105t thanks to innovative SureType™ keyboard technology. SureType allows users to quickly and accurately dial or type without the limitations of traditional phone keypads. The BlackBerry 7105t also incorporates a large, bright, high resolution screen that provides great visibility for both indoor and outdoor viewing, large dedicated send and end phone keys, an easy-to-use navigation trackwheel, an intuitive user interface and excellent battery life to optimize the mobile experience.

SureType Keyboard Technology

SureType is an innovative keyboard technology that supports the advanced messaging features that serious phone users require. Through an integrated keyboard and software system, SureType effectively combines a traditional phone keypad and a familiar QWERTY keyboard with intuitive software to create an efficient and familiar dialing and typing experience.

Powerful Features

The BlackBerry 7105t stands apart from traditional mobile phones by providing superior features such as enhanced messaging and data capabilities, Bluetooth technology, speakerphone, ample memory, excellent battery life and quad-band network support for international roaming.
