

BlackBerry Technical Training

What do we offer?

About Us

BlackBerry training is an efficient and effective way to master BlackBerry technologies – BlackBerry® UEM, BES, Good Solutions, BlackBerry® Workspaces, Athoc and BlackBerry software. Our flexible learning options in different mediums and formats help you meet the objectives of your organization.

We have training programs and supporting services which enable global audiences for everything BlackBerry. BlackBerry training helps you meet the demands of your schedule, budget and your individual learning style.

Technical Accreditation

Accreditation paths have been designed by product and align to the BlackBerry Enterprise Mobility Suites.

They support the requirements of the BlackBerry Enterprise Partner Program by facilitating the ability to build unique and complimentary capabilities and provide the wide variety of training content and assessments that an individual requires in order to successfully achieve Accreditation required for Partner Authorization.

This program is being updated with our latest enterprise software and will be available in early 2017. Check out the [website](#) for updates and information.

What's Available to You

BlackBerry training courses and assessments are designed to ensure individuals have the knowledge and skills to successfully design, install, support & maintain BlackBerry Enterprise Software solutions. Please see the table to the right for a list of new and updated training courses.

How to Access Materials & Training

You can begin the process of scheduling training by contacting one of the [BlackBerry Authorized Training Partners](#) to obtain information on available Open Sessions, Virtual Training Sessions and On Site Training classes designed for your specific needs.

Training selling skus are available through a BlackBerry account manager and Sales representatives to assist with ensuring you obtain competitive pricing. You can also purchase training directly [here](#).

To take all web-based training (WBT) courses, please log into [BlackBerry Universe](#) using your login account.

Contact Us

Whether you use BlackBerry applications or administer the BlackBerry Enterprise software in your organization, there is a BlackBerry training option for you. Start your learning journey with one of the training options, or contact [contact BlackBerryTraining@BlackBerry.com](mailto:BlackBerryTraining@BlackBerry.com) for assistance.
