TUE **JUNE 7** | 10:30 AM - 5:30 PM

	SPEAKER/S	SESSION TITLE	SESSION ABSTRACT
10:30am	RAMON PINERO Vice President – AtHoc JEFF POIRIER Senior Sales Engineer – Critical Event Management JAE KIM Director Product Management - AtHoc	Bring Order to the Chaos – BlackBerry Critical Event Management	Unify your response in the face of disaster - keeping your people and data safe by avoiding the pitfalls of disparate systems with Blackberry Critical Event Management.
11:30am	RICH DESMARAIS Regional Sales Manager - BTS STEPHEN OLSEN Principal Field Application Engineer - BTS	Protect Your Supply Chain with a Quantum Resistant Solution	It is not a question of if, but when. Within the next 5 to 10 years, Quantum computing will be a paradigm shift that will make current code signing algorithms obsolete. Join BlackBerry to learn how our Quantum Resistant Code Signing and Asset Management can be used to protect your Intellectual Property and your Supply Chain, and to deliver a private, on-premise Public Key Infrastructure or Cloud-Hosted option.
12:30pm	ABU YERRA Sales Engineer	BlackBerry XDR: Even the Odds	Is your organization's SOC struggling to keep up with the latest innovations? BlackBerry's XDR is here to even the odds with automation and artificial intelligence that delivers a cohesive, holistic view of your technology landscape.
1:30pm	GREGG YURCHAK Senior Services Sales Account Manager	XDR and Zero Trust	These are two topics shaping the cybersecurity industry. Extended Detection and Response offers visibility and correlation not previously possible to security professionals. The basic tenets of Zero Trust have become foundational in the industry. Come get more details on what these approaches are and how they work together.
2:30pm	GREGG YURCHAK Senior Services Sales Account Manager	Rethink Your Incident Response – First Impressions of an Active Incident	What should you do if your organization is caught up in a security breach? Don't make the same mistakes like everyone else - it's time to learn from others and take decisive action. See what we've learned over years of experience at BlackBerry.
3:30pm	ISMAEL VALENZUELA ESPEJO Vice President – Threat Research and Intelligence	Adversaries, Weapons & Resilience: Ensuring Business Continuity	Defending against adversaries gets more complicated every single day yet your business needs to keep running. Learn how threat research, intelligence and security as a service combine into actionable countermeasures to reduce risk, defend against an attack and provide resilient operations.
4:30pm	TODD BERGER Senior Director – Sales Engineering	Threat Actors Never Sleep - Neither Can Your Security.	In today's cybersecurity landscape, you can never let your guard down. See how BlackBerry is on watch 24/7 to protect your organization from any threat lurking in the shadows.
5:30pm	ASHLEY-MARIE CHIN Senior Sales Engineer	No Such Thing as Too Small – Guarding SMBs Against CyberAttacks	Your small business is an attractive target, especially with minimal cybersecurity resources. In this current political climate, you can't afford to be unprotected. Learn what BlackBerry can do to help your organization stay secure.
