

USAGE STATISTICS APPLICATION
PRIVACY NOTICE

The company or other entity for which you are employed or otherwise engaged (“Your Organization”) has licensed Usage Statistics Application software (the “Software”) from Research In Motion Limited or one of its affiliates (“RIM”) and wishes to install such Software on the BlackBerry handheld device (“BlackBerry Device”) used by you during the course of your engagement with Your Organization.

The Software is designed to track certain BlackBerry Device feature usage and utilization statistics, collect, compile and remove any identifying information from such statistics, and enable Your Organization to send such statistics to RIM.

NOTICE

When you install and use the Software, you agree that statistics compiled on a daily basis from your BlackBerry Device will be sent to Your Organization’s server. Summary statistics will subsequently be periodically sent by Your Organization to RIM in a secure format for the purpose of understanding and meeting Your Organization’s needs and preferences, developing new and enhancing existing services and product offerings, troubleshooting, statistical analysis and reporting, and managing and developing RIM’s business and operations, in accordance with RIM’s Privacy Policy available at <http://www.blackberry.com/legal/privacy.shtml>. You consent to the collection, use, processing, transmission, and/or disclosure of such information by RIM in a country or territory inside or outside your jurisdiction (including outside of the European Economic Area (“EEA”) if you are a resident of the EEA).

You acknowledge and agree that the Software will collect information such as configuration/environment of your BlackBerry Device (including operating system, platform version, device model, battery strength, system size), and program or application usage information (such as what features or third party applications are used, how frequently, and for how long). The Software will not collect contact information such as names, addresses, or phone numbers, or the content of activities like phone numbers dialed or received, websites browsed, or email or calendar input.

The information sent to RIM by Your Organization will not be used to personally identify or contact you, and you may subsequently turn off and/or uninstall the Software, but you agree that if you use the Software, database updates of statistics compiled from your BlackBerry Handheld will be sent to Your Organization and to RIM as indicated above. If you do not wish to share the information in the manner described in this Notice, please choose “I Do Not Agree” below and the Software will not install or run on your BlackBerry Device.
