CONNECTED WORKFORCE**

*BlackBerry® Secure™*

**WORLD  
TOUR**

# SMART FUTURE

Instantaneous control and response in complex autonomous systems

Enterprises are resistant to malicious attack with holistic security solutions

Secure remote access for any Windows 10 or macOS device

Complete flexibility of deployment types: BYOD, COPE, COBO

Unified critical communication to connect people, devices and external organizations

Mobile collaboration inside a secure managed app environment

Seamlessly use native Microsoft mobile apps from within BlackBerry Dynamics

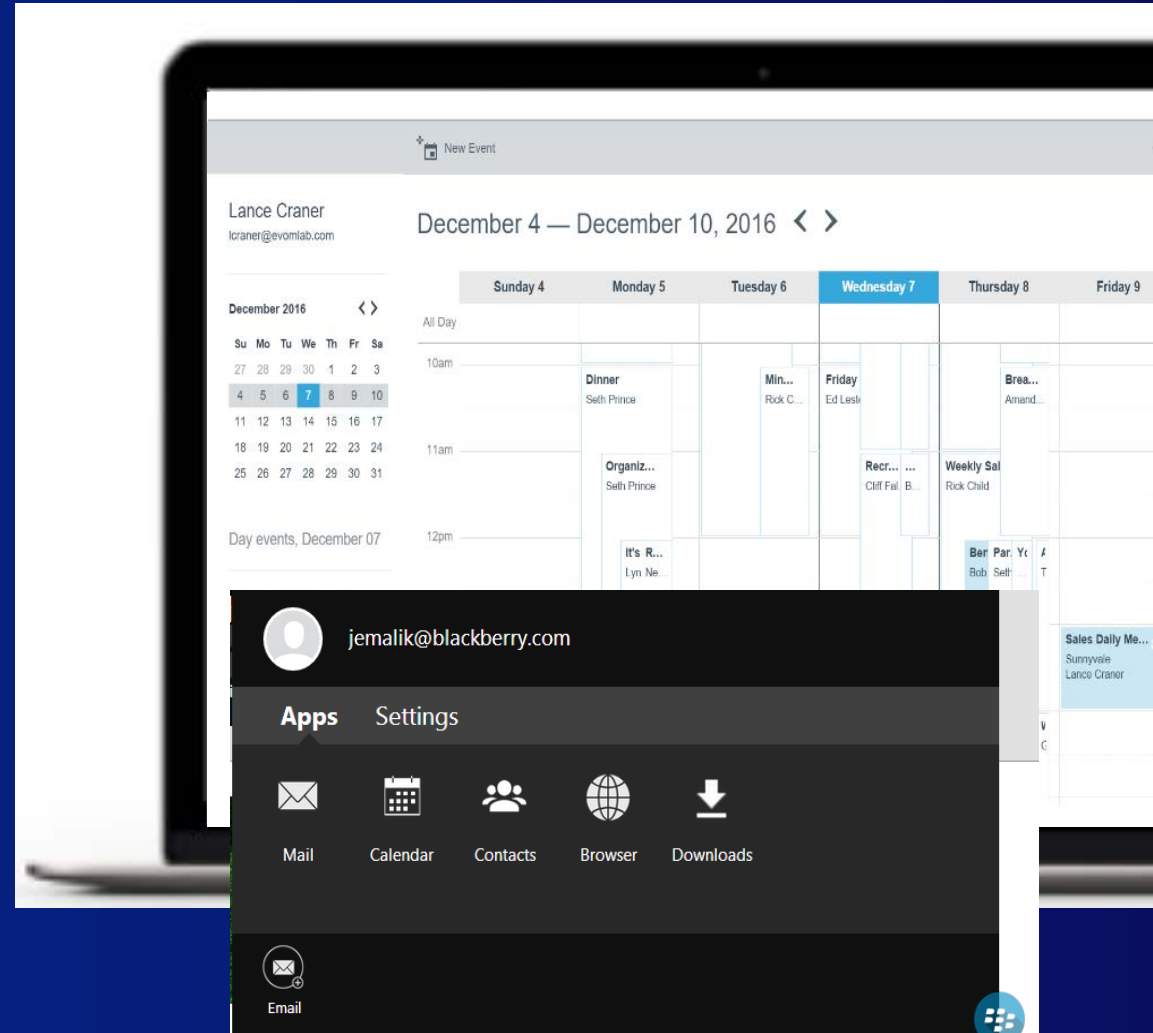

Security travels with your files wherever they go

One secure virtual collaboration space with your coworkers and external partners

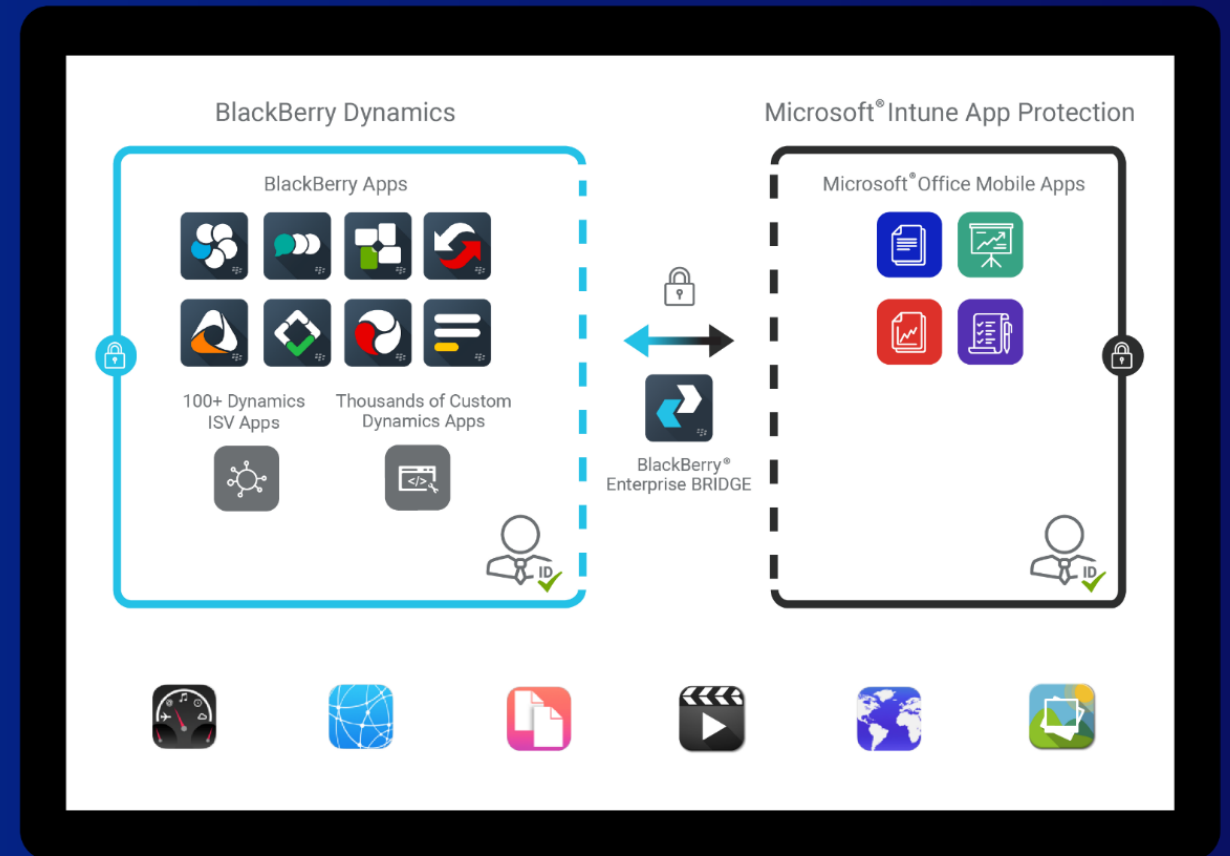

# Securely access corporate apps anytime, anywhere with BlackBerry Desktop

- Deploy access to email, PIM and Secure Access to behind the firewall resources without VPN
- Containerize applications to non-corporate Windows 10 and macOS computers
- Integrated two-factor authentication and enterprise ID

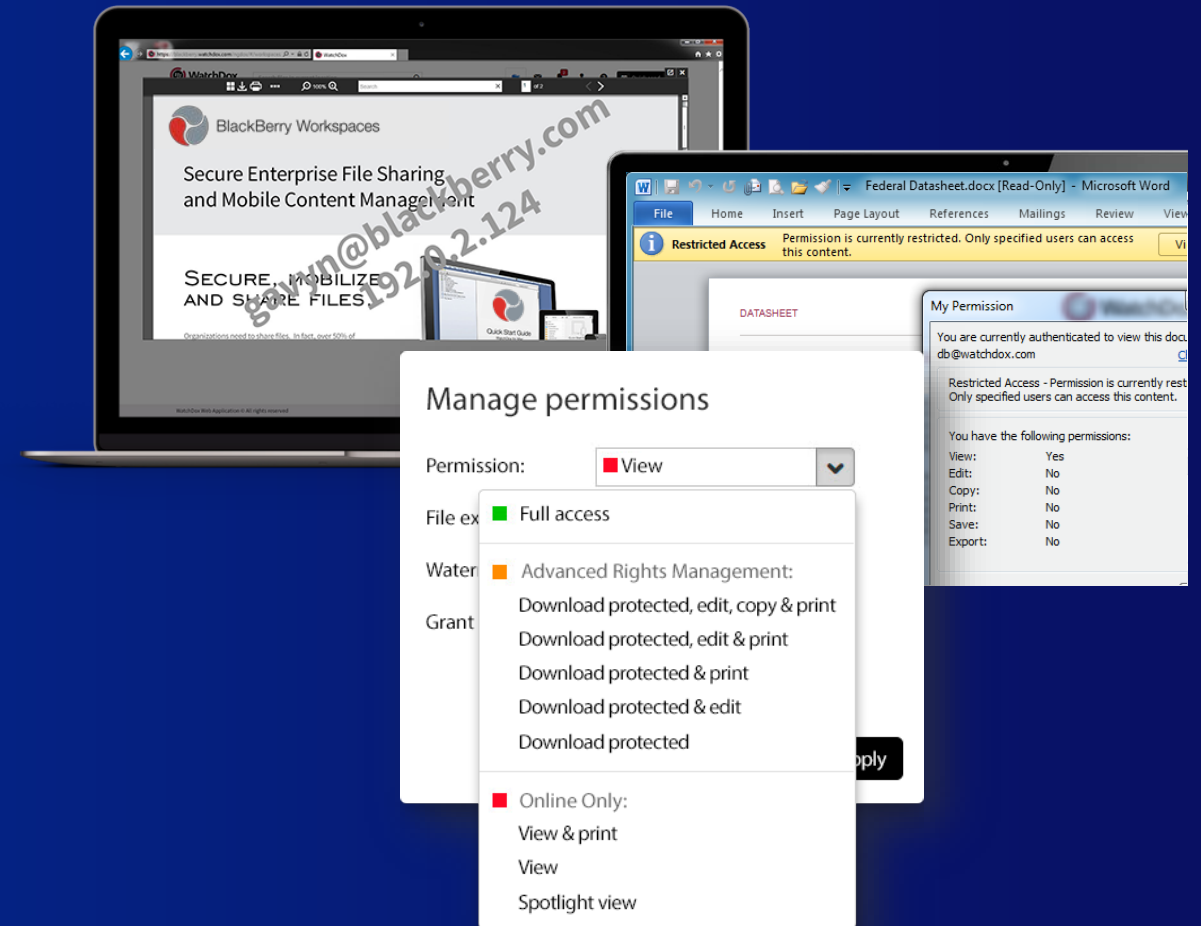

# Enabling True Mobile Productivity with BlackBerry Dynamics and BlackBerry Enterprise Bridge for Microsoft Office

- Enterprise grade e-mail, contacts, calendar and browser
- Bridge provides secure attachment editing with MS Office mobile
- Increase productivity by allowing the use of the native Microsoft apps and easily move between devices while working on the same files

# Delivering Next Generation Client Engagement with BlackBerry Workspaces

- Sync and share large files to anyone, across any device or platform
- Collaborate in digital workspaces in real time with multiple users
- Access, edit, annotate and share files on desktop, mobile and the web

# Ensuring Safety of Your Organization and Your Employees with BlackBerry AtHoc

- Make every user a sensor; collect real-time information for situational awareness
- Know the status and location of your personnel in times of crisis
- Communicate and collaborate within and between organizations
- Enterprise-class, secure alerts to people, devices, organizations
